

KEY SPECS FOR R132 KEY-LOCKING DIAL RING

The R132 key-locking dial ring contains a 5-lever mechanism operated by a key cut on the S&G 92H blank. Spacing is given from the tip stop to the center of each cut. Root depths are measured from the bottom of the key blank to the root of the cut.

DEPTH NO.	ROOT DEPTH
0	.276
1	.256
2	.236
3	.216
4	.196
5	.176
6	.156
THROAT	.178

SPACE NO.	FROM STOP	WIDTH
1	.112	.062
2	.167	.055
3	.215	.055
4	.263	.055
5	.314	.055
THROAT	.430	.100
